A Sensory Education

Anna Harris, Maastricht University, The Netherlands

Series: Sensory Studies

A Sensory Education takes a close look at how sensory awareness is learned and taught in expert and everyday settings around the world. Anna Harris shows that our sensing is not innate or acquired, but in fact evolves through learning that is shaped by social and material relations. The chapters feature diverse sources of sensory education, including field manuals, mannequins, cookbooks and flavour charts. The examples range from medical training and yoga retreats to culinary and perfumery classes.
